a

Interaction-state distribution (238 MOFs)

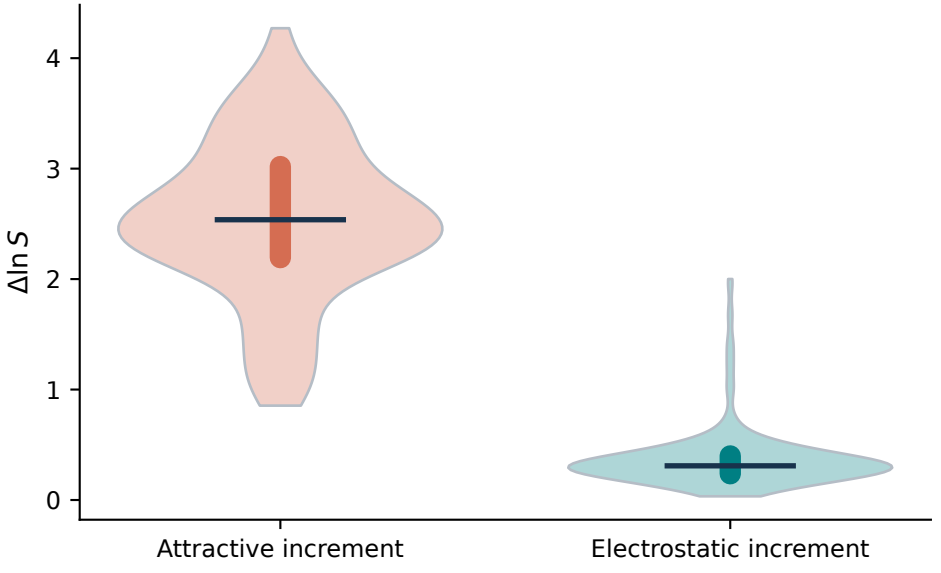

b

Trajectory through the nested potentials

c

Both increments positive, different scales

d

Population-level summary

WHAT THE NUMBERS SAY

Median WCA preference

0.816 ×

Median attractive factor

12.65 ×

Median electrostatic factor

1.36 ×

Frameworks with LJ CO_2 preference

238 / 238

Finite differences along a selected force-field path;
not separately measurable energy contributions.
